

SOCIOLOGY

2008-2009 Catalog Year

Sociologists use social theory and research methods to explore the complexities of social issues and the problems associated with social organization and disorganization. At UNT, faculty and students are actively engaged in programs of applied research and service throughout the community. Existing programs help develop and provide services such as health care to lower-income populations and greater access to available social services for the socially disadvantaged. Check out the department web site at www.unt.edu/soci for more information about the faculty and program. The PACS Office of Student Services assists students with degree planning.

The Bachelor of Arts degree in Sociology from the University of North Texas consists of 120 college credit hours (for catalog years beginning after fall 2008). The degree requires 42 hours of general academics, 30 hours in the major and 48 hours of general electives.
